NETBOX

High End Internet radio. Produces warm sound from an oversized speaker. Perfect where DAB+ signal is limited and a hotspot is present

WWW.PERFECTPRO.EU

Anytime, anywhere and any radio via the Internet. Establishes a stereo connection with other radios via Bluetooth.

ADVANCED WIFI MODULE

The NetBox is one of the first construction site radios that can receive radio from anywhere in the world at the push of a button. Particularly practical if there is no DAB+ signal indoors but a WiFi hotspot is available.

AUX IN

Need a break from radio? All you need is a basic audio cable to connect any device with a headphone jack and play it on your PerfectPro radio.

STEREO PAIRING

Connect your radio to another PerfectPro radio with stereo pairing function and enjoy your Spotify playlist in stereo via Bluetooth streaming.

POWERBANK

Our radios are equipped with strong batteries which can double as power banks with 5V/1.2A output. Connect the phone to the USB port and it will be charged in no time.

BLUETOOTH

Transform your radio into a high-quality Bluetooth speaker and listen to your own audio thanks to the Bluetooth interface. You can play anything from your computer or phone directly on your radio.

WIFI

Is the DAB+ signal weak in the workshop, but is there WiFi? Then connect to the hotspot and listen with 1 button press without any hassle. Internet radio is the world receiver of the future. You can receive thousands of radio stations from all over the world in high definition and in stereo.

FM RADIO

FM radio is here to stay! Whereas DAB+ radio reception can be tricky in large buildings or remote areas, there's always good old FM to back you up. Problem solved – as all our radios have FM capabilities.

FM RADIO

DAB+

The genuine 21st-century digital radio, as clear as a bell and as user-friendly as it gets. If there's no coverage, you can simply switch to trusty old FM.

USB

Download your favourite playlists to a USB stick and play them directly on your radio. This means no fiddling around with phones or other devices when you simply want to listen to your favourite playlists.

Lasts an entire
workday on the
optional universal
